

Test Plan for OrangeHRM Web Application

1. Project Overview

OrangeHRM is a web-based Human Resource Management system that helps organizations manage employee information, leave, recruitment, performance, and other HR activities. This test plan defines the strategy, scope, objectives, and approach to ensure the system is functional, reliable, and user-friendly.

2. Objectives

- Validate that all core modules (Login, Admin, PIM, Leave, Recruitment, Performance) work correctly
- Ensure smooth user experience across browsers and devices
- Identify and report defects effectively
- Verify validation rules and data handling
- Ensure system stability and usability

3. Scope

In Scope:

- Functional Testing
- UI/UX Testing
- Usability Testing
- Validation Testing
- Regression & Smoke Testing
- Compatibility Testing

Out of Scope:

- Performance load testing (advanced)
- Automation testing (future phase)
- API-level testing

4. Modules to be Tested

- | | |
|-----------------------------|----------------------|
| • Login & Authentication | • Leave Module |
| • Dashboard | • Recruitment Module |
| • Admin (User Management) | • Performance Module |
| • PIM (Employee Management) | • Directory |

5. Types of Testing

- **Functional Testing** → Features work correctly
- **UI Testing** → Layout, design, visibility
- **Usability Testing** → User friendliness
- **Validation Testing** → Form rules & errors
- **Regression Testing** → Old features still work
- **Smoke Testing** → Basic system stability
- **Compatibility Testing** → Browser/device behavior

6. Test Approach

- Manual testing for all modules
- Test cases designed in Excel
- Bugs reported with severity & priority
- Retesting after bug fixes
- Screenshots used as evidence
- Exploratory testing for additional defects

7. Test Environment

- **Platform:** Web Application
- **OS:** Windows 10/11
- **Browsers:** Chrome, Firefox, Edge
- **Tools:** Excel, Snipping Tool, DevTools
- **Test Site:** OrangeHRM Demo

8. Test Deliverables

- Test Plan Document
- Test Cases Excel Sheet
- Bug Report Excel Sheet
- RTM Document
- Test Summary Report
- Screenshots

9. Roles and Responsibilities

Role	Name	Responsibility
QA Reviewer	Mst. Habiba Sultana	Review test cases, validate bugs, ensure quality
QA Tester	—	Execute test cases, report defects
Developer	—	Fix issues

10. Entry & Exit Criteria

Entry Criteria:

- System is accessible
- Test cases are ready
- Environment is prepared

Exit Criteria:

- All critical test cases executed
- High severity bugs reported
- Test summary completed

11. Risks & Mitigation

Risk	Impact	Mitigation
Demo site downtime	High	Test during stable time
Limited feature access	Medium	Focus on available modules
UI inconsistency	Medium	Cross-browser testing
Requirement gaps	Medium	Use exploratory testing

12. Test Schedule

Activity	Duration
Test Planning	1 Day
Test Case Design	2 Days
Test Execution	3 Days
Bug Reporting & Retesting	2 Days
Final Report	1 Day

13. Overall Quality Goal

Ensure OrangeHRM provides a stable, reliable, and user-friendly HR system by validating all core functionalities and identifying defects effectively.
